

Description of some of the technical possibilities:

Marisport has safety footwear certified under E.N. 345 – Class 1 – SB, S1, S2 e S3.

Next we outline some of the technical properties as well as the materials we can use:

Steel toe cap

Impact resistance – 200 Joule

Compression resistance – 15.000 Newton

Corrosion resistance

Steel midsole

Penetration resistance – 1.100 Newton

### **Linings:**

Cambrelle ® Material

Sympatex ® Material

Other materials are available with thermal insulation (Thinsulate ®)

Impermeable membrane.

### **Soles:**

Rubber

Polyuretane (P.U.)

Rubber/P.U. (Double density)

Oil resistance

Antistatic materials

Abrasion resistance

Flex resistance

Hot contact resistance.

### **Construction insole:**

Texon ® material

Antistatic material

---

Sport Calçado, Lda.

---

Steel reinforced insole

Abrasion resistance.
